CLASS ZOOM TIME- 8:15- At 8:15 daily we would expect our Teachers and Students to link up Via Zoom in order to check in and to get lessons, instruction and details for the day. While the Zoom Session will start at the same time each day, the duration of the meeting will be different each day. Teachers will provide their direct instruction and lessons for the day during that session. Once the direct instruction is done, students will be able to sign off and work on their homework for the day. IF students have questions they may message, email or re-zoom meet with the teacher for the duration of the morning in order to get questions answered.

If we have a long-term closure of a week or more, specials teachers will set up a time to check in with each class and provide some direction and feedback for your students. The times for this will be given to the students with a message both from their specials teacher, and from their classroom teacher.

Parents are encouraged to help reach out to teachers with any questions or concerns they may have and to engage as much as they can with their student's learning!

8. IF we foresee a closure coming we will send home chromebook devices and chargers with students.
9. IF the closure is unforeseen, the majority of parents have indicated that they have devices at home that a student could use to access the internet. IF we have a 1 day closure we would ask that you utilize your home device if possible. IF the closure will be longer than 1 day, we will bring student devices around to families.
10. If you are having technical trouble- email Mr. Barnes.
11. Students without Wi-Fi or who have IEP's will be receiving specific information regarding their services.
